SUMMARY

Results-driven Business Intelligence Data Analyst with over 6 years of overall professional experience, including 5 years dedicated to data analysis. Proven ability to collect, clean, analyze, and visualize data to inform and enhance business decisions. Customer-facing expertise, effective client communication, and a reputation for rapid learning. Experienced in providing valuable insights for strategic decision-making. Proficient in Alteryx, Power BI, SQL, and Tableau, eager to leverage analytical prowess for a dynamic organization's pursuit of data-driven excellence.

EXPERIENCE

PwC, Kolkata, India

Assistant Manager – JAN 2024 - PRESENT

- Led BI analyst teams, overseeing the development and management of data pipelines, dashboards, reports, with a focus on financial data for executive insights on multiple projects.
- Collaborated and coordinated with cross-functional teams to collect and define business requirements for data analytics projects, leading to enhancements in operational processes.
- Oversaw thorough data cleansing efforts, actively reviewing and addressing data quality issues to strengthen the reliability of analytical reports.

PwC, Kolkata, India

Senior Associate – DEC 2021 - DEC 2023

- Proficient in crafting complex DAX expressions in data models for KPI calculation and custom measures in data analysis and visualization.
- Designed and developed interactive Excel, Tableau, and Power BI dashboards offering real-time insights into aged care and child care operations, enabling stakeholders to make well-informed choices.
- Utilized Alteryx for advanced data preparation and blending, automating data cleansing and transformation processes, resulting in significant time savings and improved data accuracy.
- Leveraged SQL Server Management Studio (SSMS) for optimizing database performance, executing complex queries, and ensuring data security and integrity.
- Guided the development of data models using tools like Power BI and SQL, contributing to the efficiency of data storage and retrieval, while also assisting cross-functional teams in advancing overall data management.
- Facilitated training sessions on Power BI and data analysis techniques, empowering team members with crucial skills to enhance effective data-driven problem-solving. Collaborated with colleagues to address
